

# Hackathon 1.0

Sponsorship Package  
Bacolod City, Negros Occidental  
Dec. 16, 2017

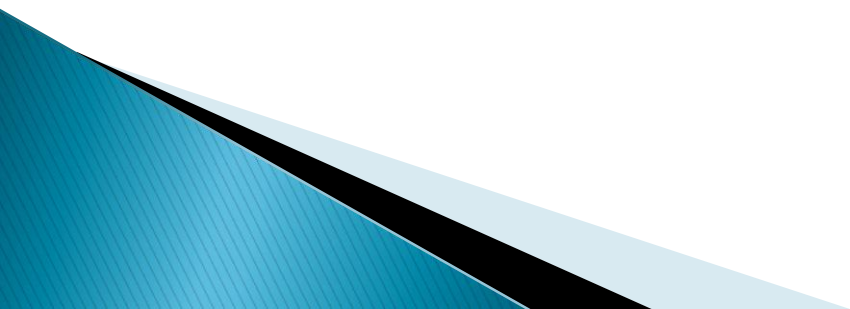

# About Us

Dear Potential Sponsors!

BSKG Solutions is a start up company that aims to help grow the IT workforce in Bacolod City. We believe that we have a big pool of IT talents and skills in the city that just need to be given an opportunity for growth.

BSKG Hackathon 1.0 is the first hackathon event that the company has organized that will run for one whole day. The goal is to help educate IT students and fresh graduates on practical development skills and expand their professional portfolios. We believe that hackathon is the best environment for the IT talents to familiarize new technologies, techniques and practices. This will also give the sponsors the opportunity to connect with individuals with great potentials.

BSKG Hackathon 1.0 aims to both teach and inspire the hackers to design, develop, and demo their vision while connecting them with organizations/companies who are willing to invest on their future.

# Why Sponsor

## Gain Talents

Hackathon is one of the most effective ways to discover individuals with great potentials, right on the spot. BSKG Hackathon 1.0 will be attended by very driven IT students and graduates. There will be mentors also that would guide and educate them. By supporting the event, your organization will gain exclusive access to these talented and skilled individuals.

## Gain Solutions

BSKG Hackathon 1.0 will give you an opportunity to bring the system challenges that impacts your day to day business. We could use these as the challenges of the hackathon that the hackers can solve by proof of concept solutions. These solutions can be the answers you've been looking for to solve your challenges.

## Gain Long-Term Benefits

Being part of this event will also educate you with the latest technology solutions and skills that your organization can potentially leverage in the future. Aside from the hackers, you will also be learning a lot!
